

Pavement Rehabilitation on State and Glenwood Streets

CONSTRUCTION RESCHEDULED FOR SPRING 2009

The Idaho Transportation Department will rehabilitate a 3.75-mile section of Idaho 44 through Boise, Garden City and Eagle. The project was slated to begin this summer, but due to contract scheduling has been rescheduled for **Spring 2009**.

The project will repair State Street (Idaho 44) from Idaho 55 east to Glenwood Street, and Glenwood from State to Chinden Boulevard (U.S. 20/26).

Project Background

These sections of State and Glenwood receive approximately 43,000 vehicle trips per day, and that number is expected to

increase to 62,500 by the year 2030. The roadway is deteriorated, cracked and rutted. This project will extend the life of the roadway and result in a smoother ride.

To minimize impacts to motorists, crews will work an aggressive schedule. All lanes will remain open during peak commute hours (6:00-8:30 a.m. and 4:00-6:00 p.m.).

At least one lane in each direction will remain open during construction. Additional details about the construction schedule and impacts will be forthcoming as the project start date nears.
